

Polaris Guidance Systems, LLC

WITSML Solutions Provider

Rig Data Aggregator

Collect and distribute data from various on-site Service Companies and aggregate the data to centralized storage with Polaris Guidance System's Rig Data Aggregator. Its plug-and-play embedded design allows for painless deployment at the rig-site. Centralized configuration management make the Polaris Rig Data Aggregator the right solution for data collection.

Features include:

WITSML™
certified product

- Plug-and-play embedded system for easy deployment
- Comprehensive routing of data from multiple input and output ports including:
 - ✓ Input filtering
 - ✓ Output Filtering
 - ✓ WITS ID substitutions
 - ✓ Filter group definitions
- Push data up to 4 WITSML servers simultaneously
- Local or remote configuration via WEB browser interface
- Configuration management via centralized configuration server
- Import official surveys using the WEB browser import tool
- Extensive diagnostics for troubleshooting
- Optional WITSML store for on-site data storage
- Custom hardware solutions available
